About Me

Dedicated and detail-oriented Frontend Developer with knowledge of technologies like HTML, CSS, Javascript, ReactJs, Tailwind CSS, and Next JS. Eager to apply proven skills for Organization in creating, and managing appealing User Interfaces and web Applications.

Projects

E-Commerce Dashboard (07/2023–present) [🔗](#)

- Created a fully Functional Dashboard for any type of Ecommerce website.
- Used Technologies like NextJs, ReactJs, Shadcn-UI, Tailwind CSS, Typescript, Prisma ORM, ClerkAuth, ZOD.
- Learned how to use Prisma ORM, ZOD Shadcn-UI, and ClerkAuth.

Dev News (04/2023–present) [🔗](#)

- Built and deployed Live News Website using MediaStack API on Vercel.
- Used Technologies like Next Js 13, React Js, Tailwind CSS, Typescript, and GraphQL.
- Added Loading and Error states, SEO Optimization.
- Learned SSR, ISR, GraphQL, and Typescript.

DevFolio (01/2023–present) [🔗](#)

- Built and deployed my Personal Portfolio Website on Vercel.
- Used React Js as Frontend Framework, Tailwind CSS as CSS Framework, and Vite Js as a bundler.
- Completely responsive with various animations using Tailwind CSS.
- Learned about some best practices while building a React App.

DevNotes (12/2022–present) [🔗](#)

- Built and deployed a Fully Functional Notes app using MERN Stack on Vercel.
- Used Technologies like React Js, Tailwind CSS, Shadcn-ui, Typescript, MongoDB, ExpressJs, and NodeJs with JWT for user Authentication.
- Learned how to connect Frontend to Backend, and how to authenticate a user with JWT Tokens.

Certifications

Advanced React

(04/2023–present)

Version Control

(03/2023–present)

Web Applications for Everybody

(02/2023–present)

React Basics

(03/2023–present)
